DETAILED ACTION

1. This action is responsive to amendment filed 08/06/2004.
2. Claims 1-3, 5-8, 10-12, 14 and 15 are pending in the application.

Reasons for Allowance

3. Claims 1-3, 5-8, 10-12, 14 and 15 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1, the prior art does not teach a method for generating a graphical image on a display from data, the display including a plurality of positions, each of the plurality of positions having an area, the method comprising: (a) determining if a portion of an object intersects a current position of the plurality of positions and providing an output if the portion intersects the current position; (b) providing a mask for the portion if it is determined that the portion intersects the current position, the mask indicating an extent to which the portion occupies the area of the current position; (c) using the mask to provide antialiasing for the portion at the current position; (d) repeating steps (a)-(c) for each remaining object at the current position, and (e) repeating steps (a) through (d) for each remaining position of the plurality of positions once step (d) is performed for the current position; thereby allowing the graphical image to be rendered position by position in raster order; wherein each of the plurality of positions is a pixel and wherein the current position is a current pixel on the display.

Claim 10 discloses a system for generating a graphical image on a display from object data, the claim system comprises the claimed elements for performing the

method steps of claim 1; therefore, claim 10 is allowed under the same reasons set forth in claim 1.
